Association of Charities of Ukraine

Our goals are to make visible in society philanthropy, volunteerism, and charity initiatives, to support and thank the participants of the Competition, because it is a responsibility to society and an opportunity to support and unite all those involved to support and unite everyone involved in this project.

Even small good deeds can have a big impact. It is important to show people that everyone can be a part of positive change, because partnerships works in both ways.

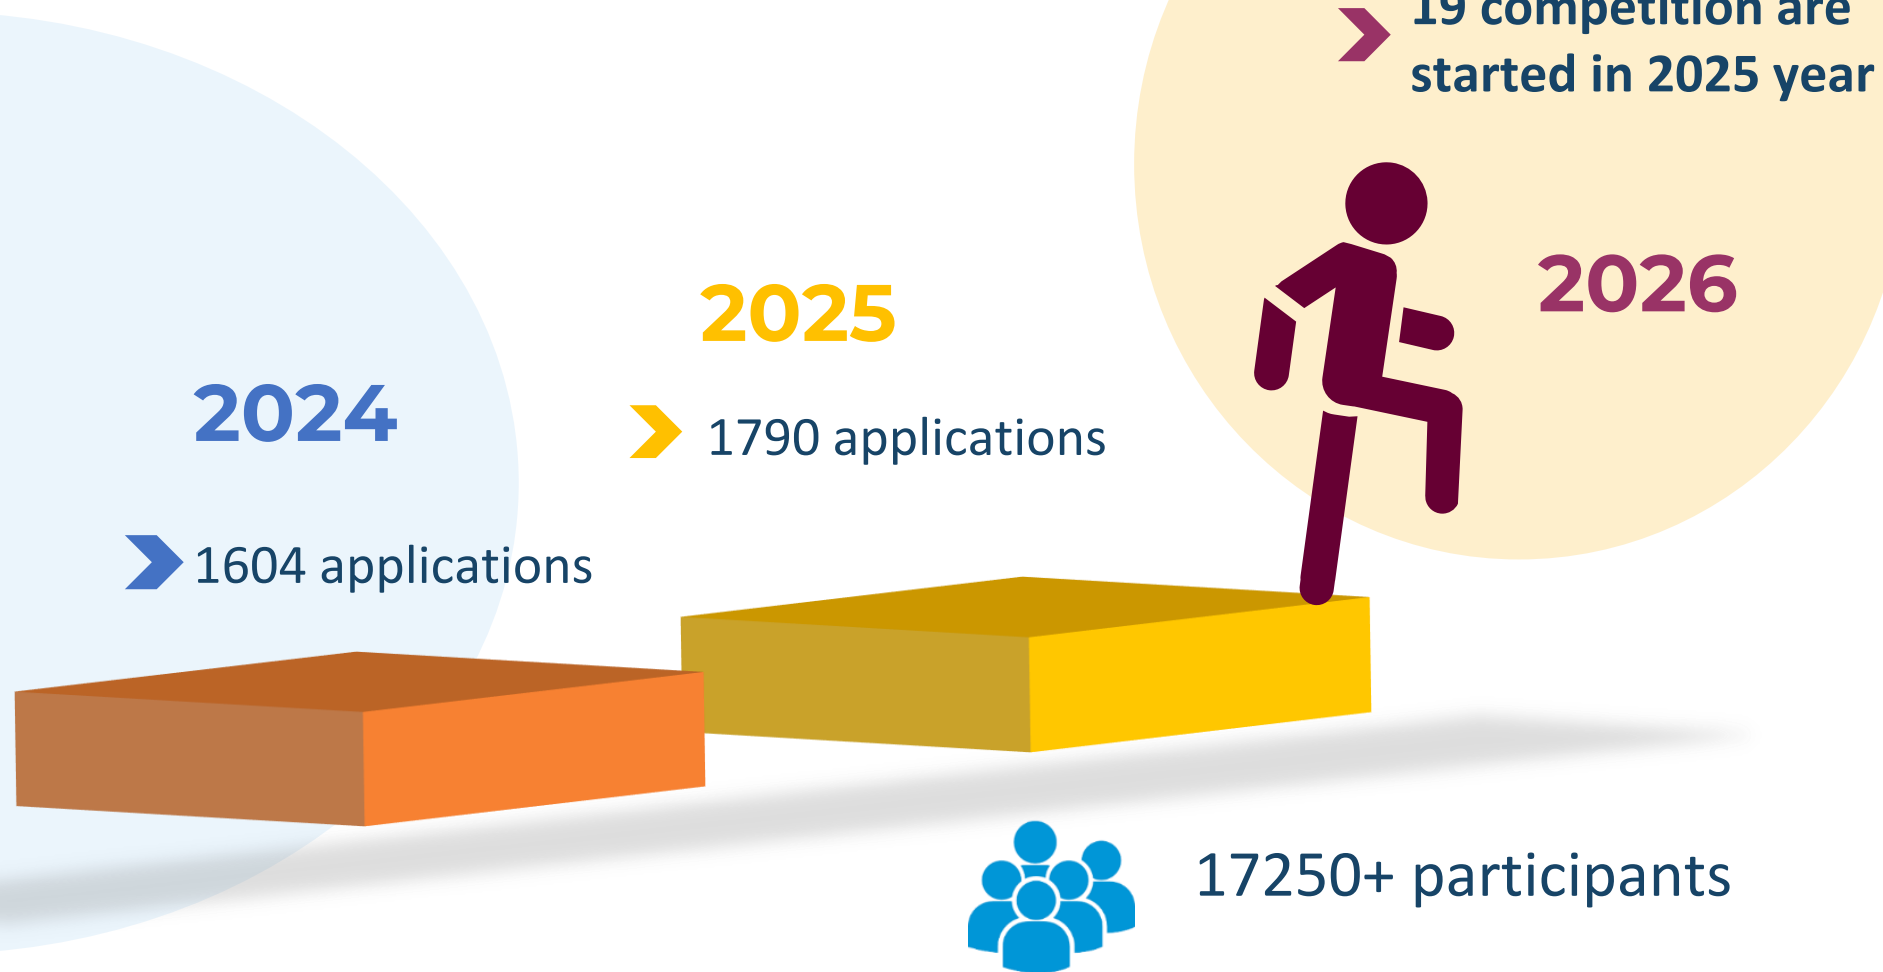

The Competition creates an opportunity to draw attention to important initiatives and projects. It is a unique platform for recognizing the efforts of staff of organizations (NGOs, foundations, businesses, etc.), individuals and volunteers who work for the benefit of society and building the future of Ukraine. The competition provides an opportunity to support and recognize important projects, promote the spread of good deeds as well as inspire others to get involved in charitable activities.

#CharityHelpUA (Humanitarian Assistance to Ukraine)

On February 24, 2022 Russia launched a full-scale military aggression against Ukraine. A tremendous loss of life, destruction of infrastructure, an overwhelming number of refugees, a humanitarian catastrophe – this is what the war brought to Ukraine and Ukrainian people.

All-Ukrainian charitable organization «Association of Charities of Ukraine» created a program called #CharityHelpUA in order to help Ukrainians and Ukraine.

#CharityHelpUA
міжнародна благодійна програма

програма медичної допомоги
#NOVOhelp

The goal of the program is consolidation of efforts and resources of association members, its partners, philanthropists and foreign partners to help protect Ukraine from the Russian invaders and deal with humanitarian challenges associated with the military aggression.

ANGELS OF VICTORY

Association of Charities of Ukraine run a special program to support volunteers and families of volunteers who got injured and killed in the process of delivery of humanitarian aid. Unfortunately, there are too many of them now, and for them we introduced a special program called «Angels of Victory».

In the future, we plan to commemorate these people and organize financial assistance to them and the families of the deceased volunteers / philanthropists. We are also looking for appropriate funding for this part of our activities and to help their families.

In the context of the on-going military invasion of Ukraine by Russian troops, Ukrainian society today needs the help of foreign partners more than ever.
